

DEALER MANAGEMENT

DEALER MANAGEMENT AND DEALER ARTICLE

Dealer Management and Dealer Article/Circular Software is a specialized platform designed to streamline the onboarding and management of dealers, as well as the distribution of articles and circulars. This software ensures efficient communication, secure access, and organized management of dealer-related activities and content.

KEY FEATURES

DEALER ONBOARDING

Interested dealers can apply through the portal.

APPLICATION NOTIFICATIONS

Email notifications are sent for new applications.

APPLICATION REVIEW AND APPROVAL

Admins can review applications and either approve or reject them. The application status is emailed to the applicant, and if approved, credentials are sent to the dealer.

MANUAL DEALER ONBOARDING

Admins can manually onboard dealers using a predefined form for basic details.

ARTICLE UPLOAD AND DISPLAY

Admins can upload articles that are displayed to dealers. PDF uploads are view-only and not downloadable for dealers.

ORGANIZED ARTICLE PUBLICATION

Articles are published by department and organized by year and month, allowing for easy access and reading.

SECURE LOGIN

Provides secure login for both dealers and admins, ensuring data protection and privacy.

This software is designed to enhance the efficiency and effectiveness of dealer management, ensuring seamless communication and organized content distribution.
