

ISARVA HRMS

TRADITIONAL HR IS BROKEN

Organizations are stuck with outdated systems that waste time, frustrate employees, and hold back growth. It's time for a change.

Endless Paperwork

HR spends more time filling out forms than helping people.

Frustrated Employees

Data is spread across too many places, leading to messy mistakes.

Disconnected Apps

Hard-to-use software makes workers unhappy and less productive.

Risky Security

Old ways of handling info leave you open to legal and tech threats.

Complete HR Suite – All-in-One HRMS Features

Streamline and manage your entire HR operations with a powerful, integrated HRMS platform designed for modern businesses.

1. Smart Company Setup

Easily customize your departments, roles, and office locations to fit your business perfectly—no coding required.

Master setup for Salary
& statutory components

Departments

Designations &
Roles

2. Centralized Employee Management

Create a comprehensive employee database with 360-degree profiles, organizational mapping, and role-based access controls for seamless workforce management.

3. Automated Payroll Processing

Process payroll seamlessly across multiple locations with automated calculations, bank-ready formats, and EPF/ESIC upload support.

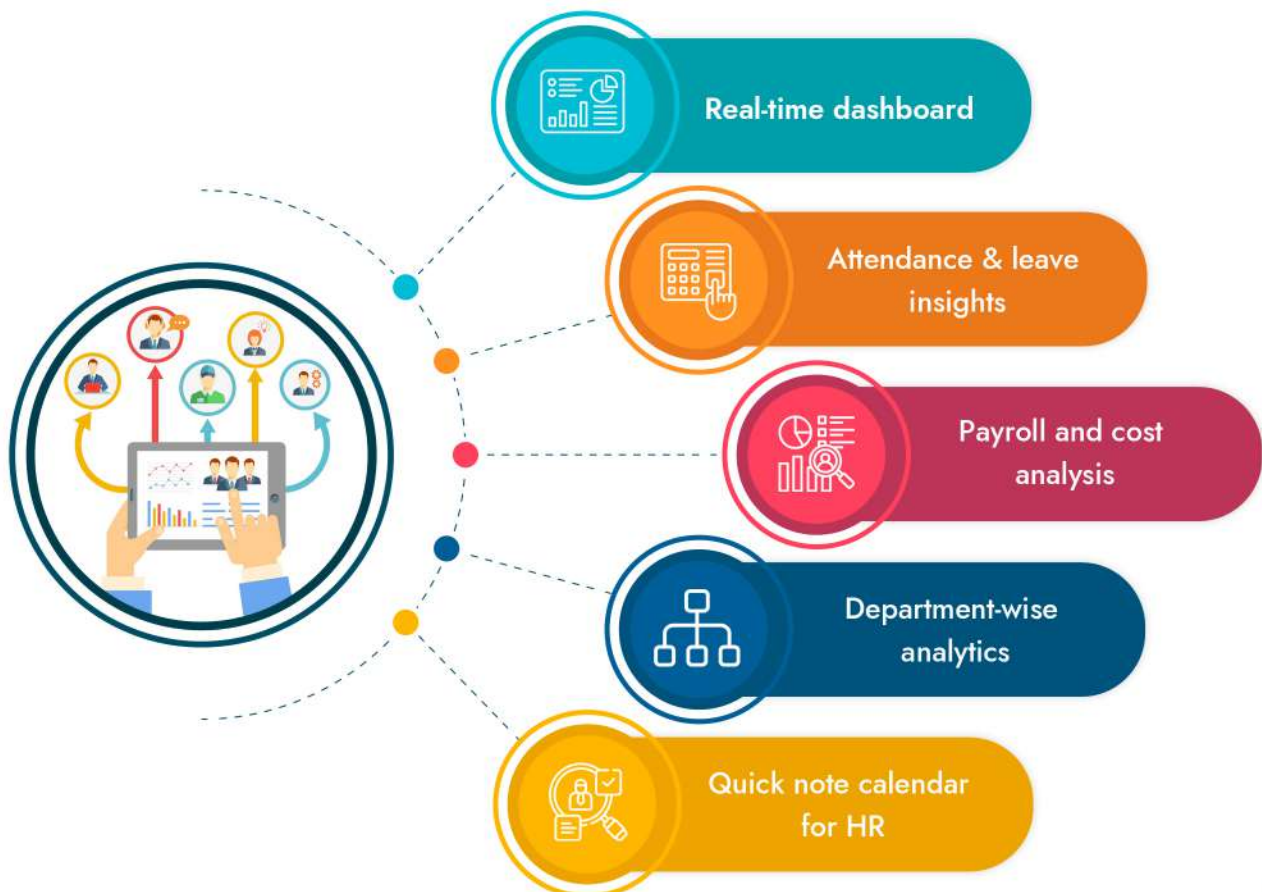

4. Robus Reporting

We offer different types of reports that helps organization to analyse

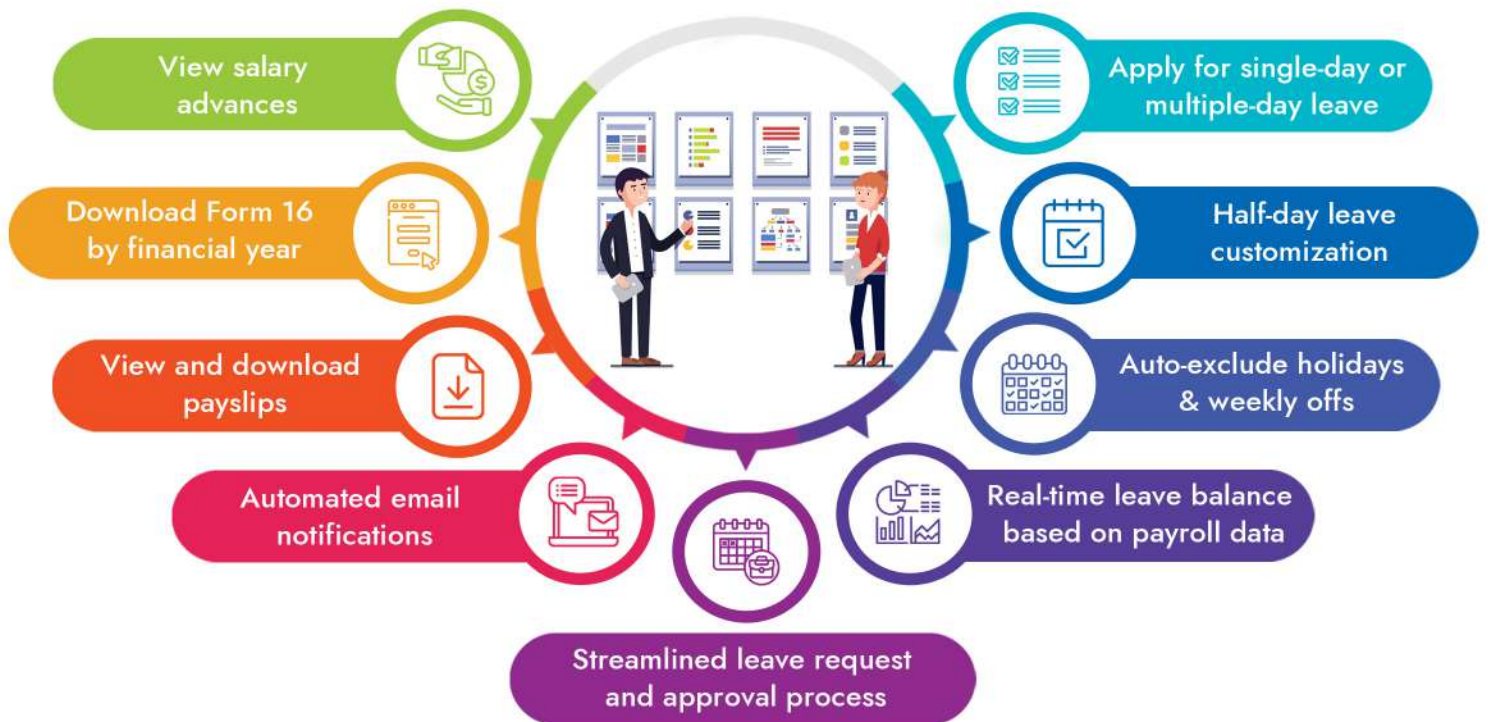

5. HR Analytics & Insights

Get real-time workforce insights to make smarter HR decisions.

6. Employee Self-Service Portal

Empower employees to manage leave, payslips, tax documents, and advances in one portal.

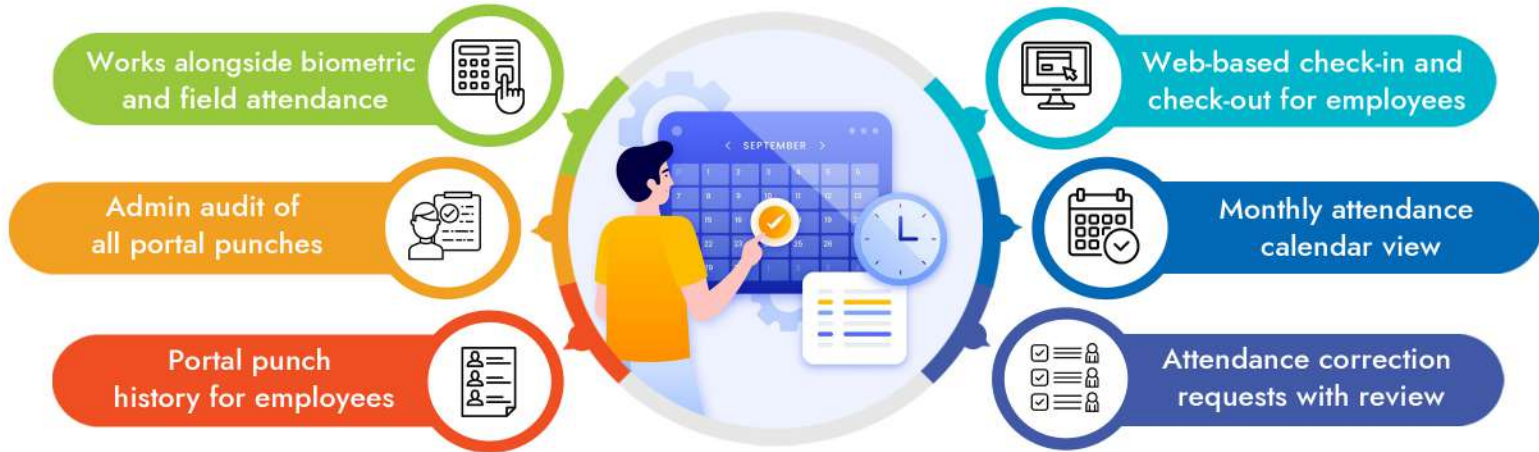

7. Shifts & Duty Rosters

Manage employee shifts and duty rosters with flexible scheduling and bulk assignments.

8. Self Attendance & Portal Punch

Empower employees to mark attendance from the self-service portal with check-in/out, monthly calendar view, and correction requests—reducing dependency on devices alone.

9. Isarva Face Attendance

Android Mobile App Face Attendance Empower on-the-go and on-site employees to mark attendance using AI facial recognition with GPS geofencing and offline auto-sync—eliminating proxy punches and dedicated hardware costs.

10. GPS & Field Attendance

Track field and on-site employees with GPS-based attendance, so organizations can verify location while staff mark presence on the go.

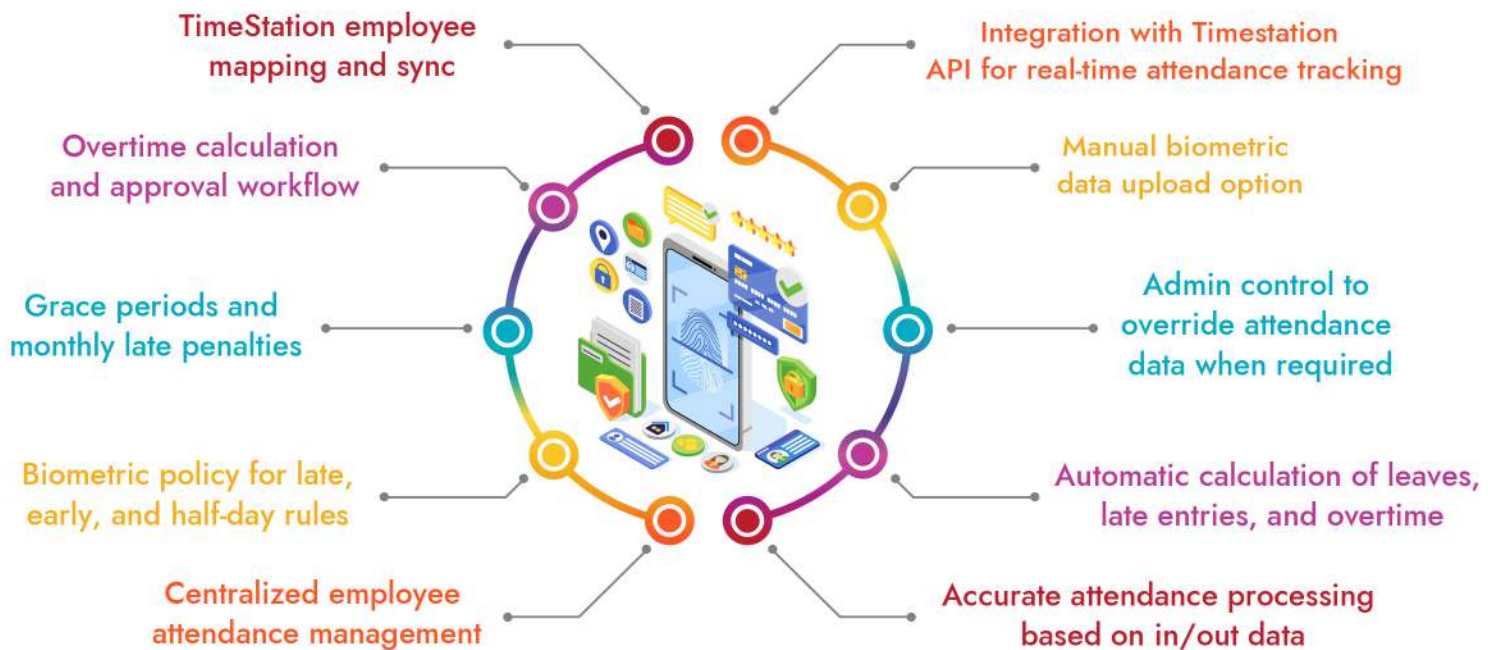

11. Attendance Processing

Easily manage and finalize employee attendance with accurate tracking and seamless integration with payroll systems.

12. Biometric Connections

Seamlessly manage employee attendance with biometric integration via the Timestation API, supporting both automated syncing and manual uploads for accurate and flexible processing.

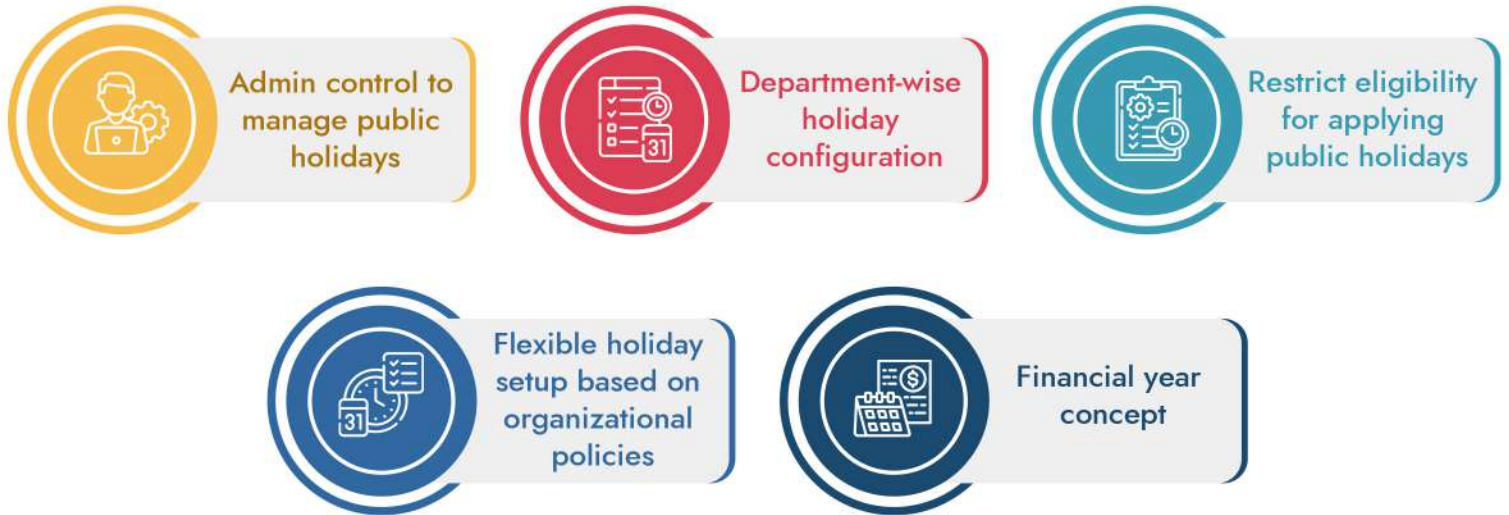

13. Mobile Workforce App

Give employees and managers a mobile-ready experience for daily attendance, leave, and approvals—so HR actions don't wait for desktop access.

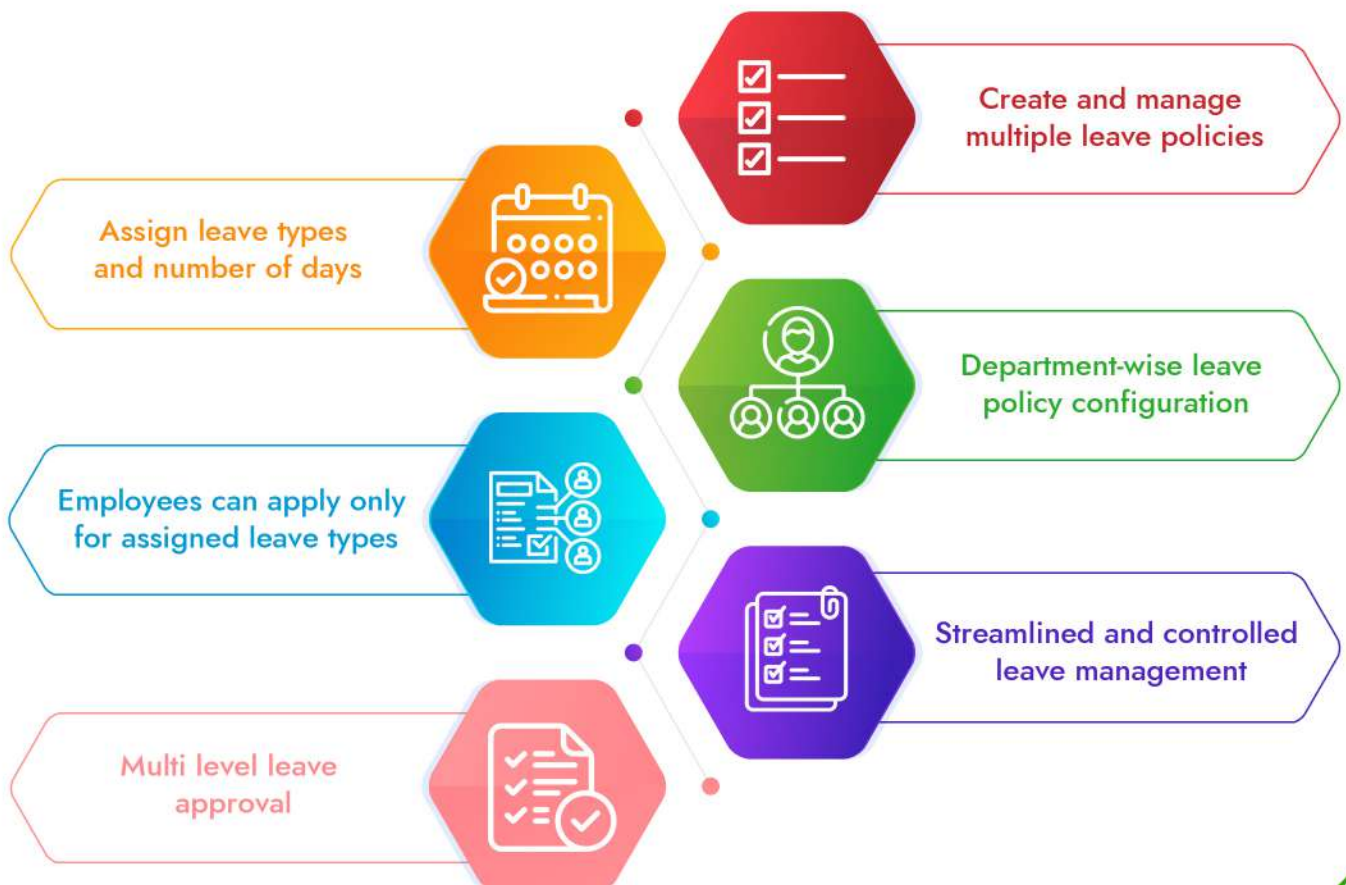

14. Public Holiday Master Management

Easily configure and manage public holidays with flexible options, including department-wise customization to suit organizational needs.

15. Leave Policy Management

Easily create and manage multiple leave policies by assigning leave types, days, and departments, ensuring employees can only apply for leaves applicable to them.

16. POSH Act Compliance

Ensure POSH compliance with a dedicated workflow for policy, complaints, inquiry, and reporting.

17. DPDP Act Compliance

Ensure DPDP compliance with automated consent, privacy rights, and secure data management.

18. Other Features

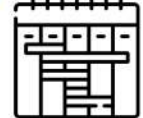

Ensure POSH compliance with a dedicated workflow for policy, complaints, inquiry, and reporting.

Activity logger for additional security

Auto realtime sync between attendance and payroll system.

Separate OT and incentive calculations

Hold and release salary modules

Increments and promotions with history

Full and final settlement on employee exit

Employee birthday reminders

Adapts to diverse employee work schedules and regional practices
