Why Businesses Need a CRM

- ❖ **Organize & Track Leads** – Capture, nurture, and convert leads systematically without losing follow-ups.
- ❖ **Boost Sales Productivity** – Automate repetitive tasks, prioritize deals, and empower sales teams to focus on closing.
- ❖ **Enhance Customer Relationships** – Maintain complete customer histories, preferences, and communication records for personalized engagement.
- ❖ **Streamline Operations** – Provide managers with real-time insights, reports, and analytics to make smarter business decisions.
- ❖ **Ensure Secure Collaboration** – Centralize data access with role-based permissions, ensuring teams work together efficiently and securely.

CRM System Main Features

CRM System Login Process

User Management

Centralizes all user accounts, roles, and permissions, ensuring secure access and smooth operations. From onboarding new team members to managing roles, hierarchies, and exits, it maintains a comprehensive user database for easy administration and efficient collaboration.

Role	Description	Key Permissions
Admin	Full access to all features, including user management and approvals. Can view and manage data.	- Create/Edit/Delete users - Assign roles and locations - All modules access
Manager	- Manager will view the all related leads & deals - Create & assign the leads & deals to staff	- Admin Assigned - Permissions are Available
Staff	- Create the Leads & deals - Assigned leads & deals visible.	- Admin Assigned - Permissions are Available

User Accounts & Profiles Management

- Create and manage user accounts for sales reps, managers, and admins.
- Store personal details, role, contact information, and activity history & set status (Active/Inactive).
- Restrict access to sensitive data using granular permissions (View, Edit, Delete, Export).

Security & Access Control

Ensures sensitive customer and business data is protected and only accessible

Role-Based Access Control (RBAC)

- Define user roles (e.g., Admin, Sales Manager, Employee) with specific access rights.
- Ensure users access only the data relevant to their role (e.g., employees see their own deals/leads, managers see their team's data).

Data Encryption

- Encrypt all sensitive data (companies, deals, leads, contact persons) both in transit and at rest.
- Protect confidential business information against breaches and cyber threats.

Access Expiry & Deactivation

- Automatically revoke access after offboarding.
- Prevent unauthorized logins after exit.

Leads Management

- ❖ **Multi-Channel Capture** - Automatically capture leads from web forms, landing pages using API.
- ❖ **Manual Entry & Quick Add** - Easily add new leads via desktop or mobile.
- ❖ **Manual Assignment** - Managers can reassign leads when necessary.
- ❖ **Ownership Tracking** - Each lead is tied to a sales representative for accountability.
- ❖ **Lead Grading** - Prioritize sales-ready leads.
- ❖ **All Activity** - Complete history of all interactions (calls, meetings, notes & files).
- ❖ **One-Click Conversion** - Instantly convert qualified leads into deals/opportunities, contacts, and accounts.
- ❖ **Duplicate Prevention** - Detects and merge duplicate leads.
- ❖ **Lost Lead Analysis** - Capture reasons for lost leads (price, competition, timing) to refine sales strategies.
- ❖ **Search & filter** - Title, Source wise & priority wise search there & filter by - All leads, Converted Leads, Today's leads etc.

Deals Management

Tracks and manages every sales opportunity from initial engagement to closure. Provides structured visibility into the pipeline for better forecasting and prioritization.

- **Easy Deal Creation** – Add deals manually or convert from leads.
- **Link with Contacts & Companies** – Associate deals with the right stakeholders and organizations.
- **Custom Deal Fields** – Capture deal-specific details like value, closing date, product/service type.
- **Stage Probability** – Assign success probability (%) to each stage.
- **Deals Pipeline** – Customizable pipeline stages to match your sales process.
- **All Activity** – Complete history of all interactions (calls, meetings, notes & files).
- **Mark as Won/Lost** – Update final status with one click.
- **Deal Closed to Won** – When a deal is marked as Won, the close date and amount are updated, helping track the lead owner's sales target performance.
- **Lost Reason Tracking** – Capture reasons (price, competition, no budget, timing).
- **Search & filter** – Title, Source wise & priority wise search there & filter by - All deals, Closed Won, Closed Lost, Open deals etc..

Company Management

Tracks and manages every sales opportunity from initial engagement to closure. Provides structured visibility into the pipeline for better forecasting and

- **Company Profiles** – Store details like name, industry, size, address, website, revenue, region.
- **Company Owner** – Update the Owner Details. It's Optional.
- **Search & Filters** – Advanced filtering by All Accounts, recently created etc.
- **Integration with Leads/Deals** – Automatically connect related opportunity.

Contact Person Management

Stores information about individuals linked to companies or leads. Enables personalized communication and relationship management.

- **Contact Profiles** – Store name, job title, email, phone, social media profiles, birthday, etc.
- **Association with Companies** – Link contacts to one or multiple companies.
- **Multi-Contact per Company** – Manage multiple stakeholders in one account.
- **Duplicate Detection** – Prevent or merge duplicate contacts.
- **Contact Ownership** – Assign contacts to specific sales reps or account managers.
- **Lead/Deal Connection** – Associate contacts with deals, opportunities, or support tickets.

Meeting Management

The Meetings Management Module enables users to schedule, update, and track meetings with customers, leads, team members, and partners.

- **Simple Scheduling** - Easily schedule meetings with contacts, or team members — set dates, times, locations, and reminders with just a few clicks.
- **Time & Duration Management** - Assign start/end times and meeting durations to keep everyone on schedule and eliminate confusion.
- **Automated Alerts & Reminders** - Receive timely notifications before meetings start so you never miss an important appointment.

Task Management

The Tasks Module lets you create and manage daily activities and to-dos related to your CRM operations. You can assign tasks to users, set deadlines, prioritize work, and monitor progress — all from one central system. This ensures nothing gets missed and everyone stays accountable

- **Task Creation & Assignment** - Easily create tasks, assign them to team members, and set due dates. Keep responsibilities clear and aligned with your goals.
- **Priority & Deadlines** - Set priority levels and deadlines so your team knows what's most urgent and when tasks are due.
- **Automated Reminders** - Receive notifications and reminders to stay on track and avoid missing important deadlines.
- **Real-Time Progress Tracking** - Track task progress and update statuses as work moves from "Open" to "In Progress" to "Completed."

Product Management

Products Module – Organize and showcase products or services with details, pricing, and taxes for better efficiency and sales accuracy.

- ❖ **Centralized Product Catalog** - Manage all products and services with names, descriptions, pricing, and tax details in one place.
- ❖ **Pricing & Tax Management** - Set sales prices, discounts, and tax rates. Ensure accurate pricing across all quotations.
- ❖ **Product Details & Categories** - Add descriptions, specifications, and images while organizing products into categories for easy access.

Quotation Mgt

Quotations Module – Create, manage, and track professional quotations with easy pricing, tax calculation, and customer communication.

Our Quotation Module empowers you to:

- ❖ **Faster Customer Response** - Respond quickly to customer inquiries and generate accurate quotations in minutes.
- ❖ **Accurate Pricing Automation** - Maintain pricing accuracy with automatic calculations for quantities, taxes, and discounts.
- ❖ **Real-Time Status Tracking** - Track quotation status instantly with clear visibility from draft to approval.
- ❖ **Professional Branded PDFs** - Generate professionally formatted, branded PDF quotations that enhance your company's image.
- ❖ **Instant PDF Download** - Download quotations instantly in PDF format for quick sharing and customer convenience.
