

EXPENSE REPORT

Expense Tracker

"Elevate Your Expense Management with Ease."

Overview

Expense Tracker is a user-friendly app for managing expenses, offering secure login, role-based access, dynamic settings, and detailed reporting for efficient tracking and approvals.

Key Features:

Google-Based Login

Secure login using Google accounts for organizational access.

User Onboarding

Easy onboarding process for new users.

Role-Based Login

User roles with specific permissions to ensure secure and appropriate access.

Dynamic Masters

Configurable reasons for adding expenses and rejecting them.

Expense Submission

Users can add expenses with photo proof.

Expense Approval Workflow

- ✓ Expenses can be approved by payment month and year.
- ✓ Expenses can be rejected with a reason.
- ✓ Expenses can be sent to Finance, HR, or Team Leads for approval.

Status Log Maintenance

Detailed log of statuses for tracking expense.

Comprehensive Reporting

- ✓ Expense report with status filter.
- ✓ Employee-wise report.
- ✓ Payout report with payout month, etc

This solution is designed to enhance the efficiency, transparency, and accuracy of expense management within organizations.
